General Report Comments: I observed three dogs on this property. Zairon Field who is the owner of the dogs was not at home as he was working.

Spruiter
Spruiter is a male staffie who is 15years old. According to Henrietha Spruiter broke loose one night and they suspect that he was involved in a fight with another dog resulting in his eye getting injured. This happened about 2months ago according to Henrietha. The dog's eye does not look like it's going to pop out as it is in it's normal position and i don't think this eye is going to see again. Spruiter's body condition is fair and acceptable. Spruiter is on a short static chain with a collar around his neck. Spruiter has access to water and shelter

Bruno
Bruno is on a short static chain without a collar. Bruno's body condition is fair and acceptable. Bruno has access to fresh drinking water and shelter. Bruno is 4years old and he is not sterilized.

Roxy
Roxy is an adult female Pitbul. She is on a long static chain with a collar on. Roxy's body condition is fair and acceptable. She is not sterilized. Roxy has access to fresh drinking water and shelter. The living environment is clean.I issued a warning advising Zairon to-

- (1) Seek vet treatment for Spruiter's injured eye
- (2) remove the two dogs namely Spruiter and Bruno from the short chain or rather set up a running line and provide swivels on both ends of the chains.
- (3) provide a collar for Bruno

Recheck on the vet treatment to be done in 24hours and the runner and collar in 7days
