General Report Comments: Upon arrival I was met by Mr. Martin who is the owner of the dog in question. On the property I observed a wirehaired terrier male called,Max in the font of the property. Max kennel is in direct sunlight and there is no shade for him in this heat. Someone dropped a new kennel for Max. The dogs living area is also dirty and feces lying around which indicates that there was not been cleaned recently. I can clearly see that Max is stressing and only want attention which the owners clearly does not give. I issued warning,W6170 to provide Max with shade ,clean his living area and to move his water bowl in a shaded area. Will follow up.
