General Report Comments: There was no people at home when I did the inspection. There is no fencing between the complainant's property and the dog owner's property. The dog was lying on the door when I arrived. I called the dog and she walked towards the gate where I was standing and the dog was limping. The front right leg looked hurt but it looks like it's not broken as the dog could put the injured leg on the ground. I observed water and shelter. The living environment is clean. I issued a 24hour warning advising the owner to seek vet treatment for the injured leg.
