General Report Comments: There were no people at home. I saw 1x German Shepherd male and 1x Rottweiler male on the property. Both appeared to be very aggressive. The 2x dogs body conditions is acceptable and they are not underweight which means that somebody is feeding them. While standing there the neighbor approached me and told me that the owner of the dogs comes home late in the evening and does feed his dogs,the problem is that he sometimes feeds the dogs raw meat and then the dogs does not finish the meat and then it attracts flies and smells,that's why he complained to Jeanne the person who called the Spca. I left a warning for the owner to contact me so that I can do a proper inspection. Will follow up.
