General Report Comments: The owner of the dogs was not at home and I observed a male X breed dog. The observed dog is not sterilized and is aggressive. Samuel informed me that the female Pitbul is now loose and she does have 3 puppies. He told me that the dogs are aggressive and he can't control them so he didn't want to take the risk of letting me inside the property. The male dog is running loose inside the property and there is no sign of a chain. I observed water and shelter. I will recheck
