VETERINARY PROBLEMS / HEALTH CO	Yes ***	The dog Oupa has a skin problem.
CONFINEMENT OF ANIMALS	Static Chain - inadequate length **	Property is not fully enclosed.

General Report Comments: I was met by Trevor Jansen who is the owner of the property and the 2x dogs. Inside the yard I observed 1x black terrier x male loose and 1x black and white terrier x male on a short chain. I asked Trevor why the one dog is chained and he told me that the dog Bingo keeps on escaping and then causes havoc in the neighborhood. Both dogs have access to potable water and food. Oupa the black terrier x male that is loose has a skin problem. Trevor says he has been treating the skin problem with coconut oil. I told Trevor that he should go to the vet or petshop and buy the dog a Simpirica tablet to treat the skin problem. I issued warning W6036. Will follow up.

ACTIONS

Warning Issued W6036

REPORT OUTCOMES

Follow-up inspection to be conducted 2025-02-14
