General Report Comments: On arrival I met an old lady who introduced herself as Berkie. The old lady seems like she is mentally challenged. I observed an adult male Pitbul X dog that was lying outside the property next to the road. The dog has a skin condition. As I got closer to the dog, he went back into the property through a hole on the fencing. I could observe water and shelter for this dog.
The black and white dog is on a short static chain of between 2-3 meters long without a collar. I observed water and shelter. The living environment is clean. This dog's body condition is fair and acceptable. I issued a Notice to comply and it was signed and accepted by the old lady
