General Report Comments: Upon arrival I was met by Preston Rudolf who is the owner of the 3x dogs on the property. I observed 2x pitbulls and 1x terrier x loose on the property. I could see a +- 6meter long rope attached to a harness at the side of the house and asked Preston if he sometimes chains the dog and he said yes,when he have visitors he puts Chuckie the male pitbull on the rope because he is very aggressive towards strangers. Amy and Mia the 2x females are always loose. The dogs body condition us acceptable and no way emaciated like the complainant has said. Preston showed me some pet mince and pellets and told me that his dogs always have food because he works at a butchery and always brings pet mince for his dogs. Water and shelter is available. I called the complainant and told her about my findings,she is more worried about the female that is not sterilized and I told her that I did educate Preston on sterilization. No welfare concerns observed. Nfa until further notice.
