General Report Comments: I went to do a recheck to see if the owner has adhered to the warning. Owner has adhered to the warning. Dr. Anja from Bergzicht animal hospital came out to check on the horse. Dr. Anja told me that the horse needs to be stabled for 2 months so that her back hooves can grow back because there is not enough hooves, that's why the horse Moonlight is struggling to walk properly. Antibiotics and painmeds was administered. Will attach the report from the vet. I spoke Dewandre who is the owner of the horse and told him that he will not ride the horse for 2 months and if I found out that the horse was ridden, Moonlight will be confiscated. Dewandre understood and told me that he will not be riding Moonlight until she is fully recovered. Will recheck once a week to check on Moonlight.
