ANIMALS IN GOOD CONDITION	No ***	Both dogs are underweight, especially the black terrier x
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Both dogs might have tickbite fever.
CONFINEMENT OF ANIMALS	On running chain	Property is not fully enclosed.

General Report Comments: The Spca received a complaint about 2x dogs on a property that is underweight, the complainant is not sure if the owner has food for the dogs. I went to the address and was met by Johanna Le Roux who is the owner of the dogs. In the front I observed a white terrier x on a running chain without a collar and at the back I observed a black terrier x on a runner without a collar. Both dogs are underweight, especially the black terrier x and to me it looks like they have tickbite fever. I asked Mrs. Le Roux if she has food for the dogs and she told me the food is finished. I issued warning W6048 to provide the dogs with adequate food and to get both dogs to a veterinarian to be examined for tickbite fever. Will follow up.

ACTIONS

Warning Issued W6048

REPORT OUTCOMES

Follow-up inspection to be conducted 2025-02-25
