General Report Comments: I went to do a recheck at the Westcoast farmstall because the Spca has received another complaint about a rabbit with eye injury and that the rabbits and guinea pigs does not have oathay. I was met by Irene Visser who is the manager at the farmstall,she walked with me to the rabbits enclosure where I observed +- 20 rabbits. I was looking for the rabbit with the eye injury but could not find any rabbits with injuries. The enclosure was clean with fresh water and food observed. We the went to the enclosure where the guinea pigs are kept,living space is clean and fresh water and food was observed. The potbelly boar is still alone in a enclosure because the owners don't want him to mate with the other 2x sows. His enclosure was also clean with fresh water and food observed. I called the complainant with my findings and she went on about why the rabbits and guinea pigs are not given oathay,I explained to her that the animals do get food and sometimes the owners do put oathay inside the enclosures. Eventually she understood. Will do a recheck.
