General Report Comments: This dog was abandoned and the neighbor chained the dog under a tree. Schalk Visser informed me that the owner left a month ago and he was the one feeding the dog. The dog is full of external parasites (ticks and fleas). Schalk asked me to take the dog and I told him that only if he signs the Admission form which he did. I brought the dog to the SPCA kennels in Darling and ordered the kennelhand to wash the dog using dip. There was another dog from the neighbor's house that came into this property and that dog's body condition is fair and acceptable
