VETERINARY PROBLEMS / HEALTH CO	Yes *** Dog must pick up weight and be dewormed

General Report Comments: There are 3 dogs on the property. The Anatolian Shepherd named Annabis is underweight. The other 2 dog's body condition is acceptable. She said that she could not show me the dog food is was supposedly finished that day. I asked her when last Anabis was dewormed and she did not know. I told her to deworm Anabis and get adequate food. She must give Anabis food twice a day. There is shelter water available. All animals free roaming. I issued a warning nr W5259 that Anabis must received adequate food and be dewormed and pick up weight and that I want to see food and that dog was dewormed.
