General Report Comments: During door to doors we observed a white and brown dog on a short static chain. On closer inspection I could see the chain is about 1 meter long. Owner told me that the reason why the dog is chained is because they do not have a gate and the property is not enclosed. Saw that the dog cannot reach his water bowl. Immediately told the owner to move the water bowl to the shade so that dog can reach. Owner complied with that. Issued waring nr W5263 for the owner to put the dog on a running chain within 6 days.
