General Report Comments: Mr April gave access again to do a welfare inspection . Tyson was put on a running chain and had a lot more moving space. He was moved to the other side of the house where there is much more space for him and that is why they put him on a running chain. He was no longer in the wooden house it is now a plastic kennel with flooring and they also provided him with a blanket. His water bowl was clean and in the shade. They bought dip and there were no ticks and fleas on Tyson . Will follow up.
