General Report Comments: We did door to door inspections and saw a female german shepherd mix dog on a short static chain without a collar or shelter. A woman came out and introduced herself as the owner of the dog. I asked her why the dog is chained and she said that her property is not enclosed. I explained that you cannot tie up a dog in that way and without a collar The dog did not have proper shelter /sleeping space. There was no water available and when I spoke to her about that she immediately filled the water bowl. I left a warning and will recheck.
