General Report Comments: The female Labrador dog is now roaming freely inside the property. Water and shelter was observed. Don informed me that the dog will stay loose for now up until he gets all the equipment needed to set up the acceptable runner.
The dog's body condition is fair and acceptable. I advised Don to sterilize the dog and he informed me that he will consider the idea.
There is no welfare concern and I will close this case for now but I will keep checking whenever I am in the area
