General Report Comments: I first went on the 30th of March and I couldn't gain access as there was no people on the farm. The farm is situated on the boundary of Swartland and Mamre. The complainant gave me the details of the owner and I managed to call him. He informed me that he wasn't aware that there is one of his horses that was injured. He informed me that he was attending a church service and will let me know when he comes to the farm.

Oscar did not inform me that he was coming to the farm so I had to call him later in the afternoon and he informed me that he did send his son to go and fetch the horse and the horse was now at his other farm in Mamre.

On the 31st of March I went with Inspector October to Mamre and I we met Oscar and we saw the horse named Worsie. The horse's leg is not broken but it is swollen. Inspector October and Oscar decided to contact an official from COGH SPCA horse unit.

I contact Oscar a few days later and he informed me that the horse was put down as he was advised that the horse is very old and that injury was going to take long to heal
