CONFINEMENT OF ANIMALS	On running chain	According to Melissa the dog Chaka is very aggressive and I c

General Report Comments: While doing door to doors I noticed a black Labrador x male on a running chain. Upon close inspection I saw that the dog did not have a collar and was tied with the bare chain around his neck. The chain that he is tied with is not a heavy chain and looks quite light and I could see that the chain would fit through a hose pipe if a collar would not work. From inside the house a lady appeared and introduced herself as Melissa and told me that the dog called Chaka belongs to her farther who are at work. I explained to Melissa the welfare concerns regarding the bare chain around Chaka neck and the dangers it holds if not addressed. Melissa under stood and I also explained to her if a collar does not work that they should try the hose pipe method that I have just explained to her. Melissa told me that she will make sure that her father adheres to warning W5283 that I have just issued. Will follow up.

ACTIONS

Warning Issued W5283

REPORT OUTCOMES

Follow-up inspection to be conducted 2025-04-23

INSPECTION ANIMALS
