ANIMALS IN GOOD CONDITION	No ***	The dog has a skin problem
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Skin problem.
CONFINEMENT OF ANIMALS	Free roaming - property not adequ	

General Report Comments: While doing door to doors I saw this white and black terrier x male on the side of the road. I stopped and tried to approach the dog but he ran into a yard that I not fully fenced. The neighbor came out and told me that the dog that just ran into the yard next door does not belong to the people who resides there. I asked the neighbor if I can go onto the property just have a closer look at the dog because I saw that he has some sort of skin problem. The neighbor told me that it's no problem and she also knows that the owners of the property won't mind. Upon closer inspection I saw that the white and black dog has a skin problem. I took some pictures of the dog and as I was walking to my vechile a man approached me and told me that he know who the dog belongs too and gave me the address of the owner,who has been identified as Mrs. Rachel Papier. I went to 91 Protea street where I was met by the owner Mrs. Papier. I asked Mrs. Papier if the white and black dog in Venus street that I just saw belongs to her and she confirmed that she is the owner. I asked her if the dog has been treated in any way for the skin problem he has and she told me that they have tried dip but it does not seem to work. I told Mrs. Papier that I know foe a fact that dog dip does work and that there is also other products on the market that she can use. I issued warning W5282 to provide the white and black terrier x male with the necessary treatment for his skin condition. Will follow up.

ACTIONS

Warning Issued W5282
