General Report Comments: I responded to complain about the dog that was burnt. I arrived at the property Mr John welcomed me to the property and I asked to see the dog that was burnt. I saw the dog with a burnt wound and it is drying and I asked him when did it happen and he said yesterday I said the wound is drying it might be 3 days it happened.
I asked him why what are they using for the wound and he said his wife is in town to buy something for the wound and they wanted to take the dog to the vet but the person with the car didn't come.
I issued a warning for owner to provide a adequate veterinary treatment for the dog. Water and shelter was observed and the body condition of the other dog is acceptable.
