General Report Comments: I was granted access to the property by Ms. Tosela. I saw 1x white pitbull x female on a running chain. The dog is underweight and is covered with ticks. Water and shelter is available. The brown dog Bruno is on a 4 meter static chain provided with a collar. Ms. Tosela told me that the female dog Snowy does not belong to them and that the owner does not care about the dog. I issued warning W5297 to get Snowy to a vet because she is underweight and covered with ticks. Ms. Tosela called her partner Michael to ask him if she can surrender Snowy as he is in control off the dog. Michael agreed and Snowy was surrendered to the Spca. Refer to admission D12553. Ms. Tosela said that they will put Bruno o the running chain that Snowy was on ,will follow up to see if Bruno is on the running chain.
