General Report Comments: While doing door to doors I came across a black terrier x male that was tied with a +-8 meter long chain, but I saw that the dog did not have a collar. Water was available. The other thing that I have noticed is that the dog could not reach his kennel. The dogs living area is clean and his body condition is also acceptable. I issued warning W5293 to provide the dog with a collar and to move his kennel closer to him. Will follow up.
