General Report Comments: I did a recheck today and I found that the owner of the dogs was not at home and I spoke to the neighbors they told me that the owner is not there and I told her that this is very important warning and she must adhere to it and she said will pass the message to the owner of the dogs. I left the warning that they must provide the dog with adequate veterinary treatment for the penis and I also mentioned that they can surrender the dog to the spca. Later in the evening I got a WhatsApp message saying that they love the dog and they don't want to just give it away.
