General Report Comments: I responded to complain about the hamsters kept in a small enclosure. I arrived at the shop and miss Jocelyn joce welcomed me to the shop. I explain to her why I was there and I a to see the hamsters hamster and she took me to them and I saw 1 cage has 4 females and 1 cage has 5 males hamsters and I told her to provide another cage and remove some of the males and she called her staff to get that. While I was there they brought another cage. I aslo advise her if she has too much animals she can surrender them to the spca because she said people dumps the hamsters in the box at her shop. Water and shelter was observed and the body condition of the hamsters is a acceptable NFA.
