General Report Comments: The two female Terrier X does are inside a room at the back of the house and Mary informed me that the female dog's are on heat so she doesn't want the male dog's to mate with the females as they end up fighting. There is water inside the room.
The male dogs are in a camp at the back of the house and it stretches up to close to 10m long. The camp is full of dog feces. I issued a Notice to comply advising Mary to clean up the feces. I observed water, food and shelter. The body condition of all the dogs on the property is fair and acceptable
