Time:	15:35
Inspector:	JAMESON OCTOBER
Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2025-07-09
Comments:	Ginger was operated by Dr Jacobs and his leg was mended with a metal plate. He is on medication Epleptin 300mg and Betamox 500mg. I went to the owner and he said that he will pay the amount to us in instalments. We are keeping Ginger at the SPCA for the aftercare. The owner is very happy that we can help his dog.
