General Report Comments: I went to do a recheck on the grey mare with the injured leg. Oubaas the owner was at home. The mare is doing so much better and I could see that the swelling is still busy to decrease. Oubaas told me that Zelda was there over the weekend and gave the mare antibiotics and painkillers, and they also cleaned the wound. When I first saw the mare last week she could not put weight on the left leg where the wound is, but now she is putting weight on that leg. Oubaas showed me the feed for the horse. I saw 2x bales of lucern and in the feeding tub there were also food, water is also available. Will do a recheck.
