General Report Comments: Ena-Lisa was at home and allowed me to do the inspection. The dog's body condition has improved so much and the condition is now acceptable. I observed water and shelter. Ena-Lisa informed me that a few weeks ago the dog was on heat and she mated with some dogs so she thinks that the dog might be pregnant. The dog is on a running chain with a collar.
Ena-Lisa wants the dog to be sterilized and I promised her that I would come back with a sterilization form.
