Comments:	I went out after receiving a phone call from Maggie and i observed an injured adult cat. The cat is injured on the face. Me and three ladies tried to catch the cat but he always went into the thick bushes whenever we approach him. A lady named Maryna Liebenberg said that they were going to set up a trap and if they manage to catch the cat they will take it to the vet. I did educate/advice them to monitor the trap almost after every 30 minutes so that in case the cat is in the trap he wont hurt himself trying to get out.
