| CONFINEMENT OF ANIMALS          | Static Chain - inadequate length ** | The dog is aggressive and the property is not fully enclosed |

General Report Comments: The male dog named Tiger belongs to Constance's uncle Robert who was not at home during the time of my visit. There is shelter and water available for the dog. The dog's body condition is fair and acceptable. The dog is on a short static chain with a collar. The living environment is clean. I issued a Notice to comply and I did educate on the effects of chaining a dog as he does not express his normal behavior which leads to stressing and the dog ends up being aggressive.
