General Report Comments: While doing door to doors I came across a black pitbull x female in the street. I followed the dog and she went into a yard. There was no one at home. The property is not fenced so I could gain access to the property. Upon closer inspection I saw that the female dog has a skin condition. Water and shelter is available. There was no people I could speak to to ask if the dog are being treated for the skin condition. I issued warning W6592 to provide the dog with treatment to treat the skin condition. Will follow up.
