General Report Comments: The female adult dog named Mia is on a long static chain with a collar. The dog is underweight and the body condition needs to improve. The initial complain was that the owner doesn't want to sterilize the dog of which i advised Laura that i will try to convince Stephanie but if she refuse there is nothing that we can do regarding the sterilization of the dog as we can't force her to do it but fofortunately after i convinced her, she agreed to have the dog sterilized as soon as the puppies stop drinking from the mother. There is water available for the dog so as the shelter. I issued a Notice to comply and i will recheck
