Comments:	I sppke to the owner of the dog Mev Venter. 0670935700 She said that her dogs fight when they are standing at the gate and there is a person that walks past their gate with his dogs loose. That is when the biting happens. She did take them to Vredenburg Animal hospital. I spoke to Vredenburg Animal Hospital 022 715 1444 and they confirmed that she was there with the dogs. The one dog the female is back because she bit out her stitches. Mrs Venter is going to send the pictures of the medication but the vet did confirm they were treated.
