CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	The female Pitbul named Maze have open wounds on both fro
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Maze have open wounds on both front legs
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: On arrival all three dogs were loose inside the property. Morne Venter who is the owner of the dogs was present . He informed me that the dogs were chained when he was moving in and also when he is not at home as they jump out of the property. I did educate on the acceptable way of chaining the dogs though the SPCA is opposed to the chaining of dogs .

Maze

The female Pitbul dog named Maze is 5years old and running loose inside the property. Morne informed me that the open wounds on Maze's front feet is as a result of fighting with Midnight. He claimed that where he was staying before the people were taunting the dogs and in the end they fight. He showed me the wound spray that he is applying on the wounds. Besides the wounds,the body conditon is fair and acceptable.

Midnight

The adult male Pitbul named Midnight is also loose inside the property. Midnight have old fighting marks. His body condition is fair and acceptable.

Max

The X breed dog named Max is loose inside the property. His body condition is fair and acceptable. He is the only one without fighting marks.

Conclusion

Both dogs have access to fresh portable clean drinking water and they also have access to shelter. I did educate on the acceptable way of chaining the dogs and Morne informed me that he was going to try and extend the height of the wall so that the dogs don't jump over the wall. I will do a recheck to see if the wounds on Maze are healed.

ACTIONS

NO ACTION REQUIRED

REPORT OUTCOMES

Follow-up inspection to be conducted 2025-08-19
