General Report Comments: I observed only two dogs and i didn't see the female Pitbul. The male Pitbul dog named Midnight have some open wounds which previously were not there. The right side of the head is swollen and i suspect that the dog have got ear infection as he keeps shacking his head. The brown dog named Max is in a fair and acceptable body condition. I observed water and shelter. The living environment is clean. I issued a Notice to comply advising Mr Venter to seek vet treatment for the injured dog within 24hours. There was no people at home so i left the notice by the gate.
