CHECKLISTS

General Report Comments: Waylin the owner let me on the property where he took me to the back where I saw the puppy . The skin condition has improved and all the puppies hair grew back. I saw a bandage on the puppies leg and ask Waylin what happened,he told me that the puppies leg got into the door. I asked him to take off the bandage so that I can see if there are any open wounds and he did . No open wounds observed but the puppy is limping. It does not look if the leg is broken because the puppy can put weight on the leg but struggles. I issued warning W6983 to get the puppy to a vet to check if the leg is not broken. Will follow up.

ACTIONS

Warning Issued W6983
