General Report Comments: I observed two male dogs and a female dog with 7 puppies. The female dog gave birth two weeks ago according to Andries but the body condition is fair and acceptable . Water was available for all the dogs but there was no shelter for the dogs as they are sleeping under the stoep. Andries surrendered the adult female dog and the puppies. The two adult male dogs are still at the property. I issued a warning advising Andries to provide adequate shelter for the remaining two dogs .
