General Report Comments: Mr. De Beer the owner of the animals let met onto the farm to do an inspection. I explained to Mr. De Beer why I am here and he admitted that there is no water on the farm but that he gets water from the neighbouring farm,Hope farm. We went to the water troughs and it was filled with water. The poultry also have water and food and is in acceptable conditions. Mr. De Beer and I then went to see if we can find the goats and we did. The goats are also in acceptable conditions. Mr. De Beer told me that he thinks he knows the person who complained,because Mr. De Beer and the owner of the farm are busy with a civil case,so he thinks this person just want to make life difficult for him . I told Mr. De Beer that I don't know who the complainant is and if I knew I am not obligated to tell him. The animals on the farm do have water and food. NFA until further notice.
