General Report Comments: Christi who is the owner of the animals was at work on another farm and his daughter's boyfriend Faried allowed me to do the inspection. There is two dogs and about seven cats on the property. The complainant informed me that she took the cat which was looking sick and she is not bringing the cat back. Of the cats that i observed, all seems to be in a fair and acceptable body condition but Christi is going to surrender some of the cats on my next visit. Both dogs body condition is fair and acceptable. The dog named Diamond is on a short static chain without a collar. I issued a warning and will recheck
