General Report Comments: The owner Abraham was not at home, but Jessica who is a family member gave me access to the property. I asked Jessica about the puppy with the abscess on the face and she said this morning the abscess was gone and the puppy is fine. We went to the kennel where she first had to take Lady inside the house because she is very protective over her puppies. Inside the kennel I observed 8x puppies that's about 2 weeks old. Jessica showed me the puppy that had the abscess and he is fine, no abscess was observed. The puppies look all healthy. Water and food was observed for the adult female. No welfare concerns were noted. NFA until further notice. I gave feedback to the complainant Sarah Adonis in person. NFA until further notice.
