Inspector: JAMESON OCTOBER

Type: REMOVED-STRAYS
Follow-Up Date: 2026-10-01

Comments: The SPCA received a call about a stray horse on the Langebaan road that is in critical condition because the horse can hardly stand. I rushed to the location that was given by the complainant. Upon my arrival I was met by members of the public and law enforcement officials. I saw 1x dark bay mare on the side of the road th e members of th public was giving her water and she looked very weak. One of the members of the public had a horse box and offered to transport the horse to the SPCA in Vredenburg. I escorted the horse box to the SPCA. Upon arrival we offloaded the horse and waited for a vet to come and check up on the horse. Dr.Janse van Rensburg came to check up on the horse,Dr. Janse van Rensburg took the horses temperature and heart beat and rushed back to the practice to get drip because the horse is dehydrated and is in critical condition. The kennel hand and I kept the horse steady while waiting for the vet. Dr. Janse van Rensburg arrived with his assistant and the horse was put on drip,the kennel hand and I had to hold the horse steady and keep her awake because she could hardly stand. 7x bags of drip was administered,she was stabilised for now but still in critical condition. Dr. Janse van Rensburg said that we must monitor the horse and let him know how she is doing tomorrow morning. Will follow-up.
