General Report Comments: On arrival at the premises, I was met by Mr. Monrico April. I introduced myself and explained the purpose of my visit.

I then observed a brown and white female Pitbull named Marley, approximately 1 year 8 months old. The dog appeared physically underweight. Water was available, the living environment was clean, and adequate shelter was available. The dog was roaming freely inside the premises, although the premises was not properly fenced.

During the inspection, I further observed a light long chain of approximately 5-6 meters. When questioned, the owner stated that he sometimes chains the dog because it escapes the premises as it is not properly fenced.

I educated the owner about sterilization, which he refused.

I issued Notice No. I005987 instructing the owner to:

1. Provide the animal with adequate food on a daily basis.
2. Place the animal on a running chain within 4 days, until the fencing is adequately secured.

Refer attached Notice no. I005987.

The notice was accepted and signed by Mr. Monrico April.
