ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Underweight
VETERINARY PROBLEMS / HEALTH CO	Yes ***	External parasites
CONFINEMENT OF ANIMALS	Static Chain - adequate length	Jumping front fence

General Report Comments: On arrival at the premises, I was met by Mrs. Amber Van Wyk, known as a friend of the owner of the dogs, Mr. Kaydon.

She contacted Mr. Kaydon telephonically via WhatsApp video call. I introduced myself and explained the purpose of my visit, and was granted permission to enter the premises.

Before entering the premises, I observed a brown and white Pitbull puppy standing outside the premises in the street. As I approached, it jumped back into the premises.

During the inspection, I observed:

- Female Pitbull named Bella, approximately 1 year old, on a static, long light chain of approximately 8 meters, chained directly around the neck without a collar.
- Male Pitbull named Bob, approximately 2 years old, roaming freely inside the premises. Bob had external parasites on his body.
- Puppy named Mollie, roaming freely inside the premises.

Total: 3 dogs on the premises.

- Shelter was available but too small to accommodate all 3 dogs.
- Living environment was clean and water was available.
- Adequate food was not available.
- All dogs appeared physically underweight.

The premises at the back has secure precast wall fencing with sufficient space. I advised the owner to put up a partition to prevent the dogs from getting out into the street.

I issued Notice No. I005990 instructing the owner to:

1. Provide the animals with adequate food on a daily basis.
2. Provide the animals with adequate veterinary treatment within 2 days for external parasites.
3. Untie / unchain the dogs immediately to roam freely inside the property, or place the animals on running chains within 4 days.
4. Provide the animals with adequate shelter within 4 days.

The notice was accepted and signed by Mrs. Amber Van Wyk on behalf of Mr. Kaydon. Refer to attached Notice No. I005990.
