General Report Comments: On arrival at the premises, I was met by Mr Steve Slamson. I introduced myself as an SPCA Inspector and explained the purpose of my visit.

Mr Slamson granted me permission to conduct an animal welfare inspection on his premises.

During the inspection, I physically observed the following animals:

- 12 chickens
- 2 ducks
- 1 male Africanis puppy, brown and black in colour, named Oscar, approximately 5 months old
- 1 female tortoiseshell kitten, named Tomzie, approximately 6 months old

All animals observed appeared to be in good physical condition with no visible veterinary or health concerns. Clean water was available, the living environment was clean, and adequate shelter was provided. All animals were roaming freely inside the premises, although the premises was not adequately fenced.

I then questioned Mr Slamson regarding the adult dogs mentioned in the complaint, as I did not observe any adult dogs on the premises during my inspection.

Mr Slamson stated that he is aware of the two dogs referred to. He explained that the dogs belonged to a person who previously resided in the area and who relocated, leaving the dogs abandoned. Mr Slamson stated that he took it upon himself to feed the dogs, as a result of which the dogs have become accustomed to his premises. He feeds them from outside his premises, although they sometimes enter the premises.

I conducted a thorough search of the premises and confirmed that the dogs were not present at the time of inspection.

Mr Slamson further stated that the dogs are usually seen at his premises in the morning at approximately 06h30 for food. He undertook to make a plan to confine the dogs when they appear and to contact the SPCA as soon as possible for collection.

Condition of all animals was good. No contravention observed at time of inspection regarding animals on site.

To follow up with Mr Slamson to secure the abandoned dogs.
