General Report Comments: The address given by the complainant is incorrect as property number 9 is a complex and where it's written house number 9 is on the same wall with house number 7 and I could see a chained dog on property number 7. There are two dogs adult dogs on this property. The male dog named Steady is on a long static chain with a collar but there is no swivels available. The dog's body condition is fair and acceptable. There is shelter and fresh drinking water for the dog. There are some rubbles inside the enclosure where this dog is chained. The female dog named Coco lives inside the house with her three puppies. Her body condition is fair and acceptable. Mr Noqwaka would like to sterilize both dogs but he informed me that at the moment he doesn't have the money. I issued a warning advising Mr Noqwaka to:

- (1)provide swivels on both ends of the chain
- (2)to clean and Hygienically maintain the living environment in the enclosure where the dog is being kept
