General Report Comments: While doing door to doors I came across this brown terrier x female on a chain that about 3 meters long with a hose pipe collar. The dog is provided with adequate shelter and potable water. There was no one at home home to ask why the dog is chained, but I could see that the property is not fully enclosed. I issued warning W6809 to install a running chain so that the dog can have more space to move around. Will follow up.
