General Report Comments: On arrival I was met by the complainant at the complex entrance and he took me to the address in question by he was standing from a distance as he claimed that he doesn't want the neighbours to know that he is the complainant. There is a dog kennel available but you have to stand at the gate to see it as it is in a corner. I observed water and shelter. The dog's body condition is fair and acceptable. I went back to the complainant to inform him that there is shelter available and he apologized as he claimed he didn't go close to the gate. The living environment is clean. There is no contravention of the APA
