General Report Comments: I went to do a recheck to see how the horses are doing, especially the grey horse that needed to put on some weight. Upon arrival I was met by Lukas who looks after the animals. Lukas told me that the black horse has died,he told me that the horse was fine Saturday and showed me a picture of the horses he took on Saturday. Lukas said that the Sunday morning when he went to feed the horses he saw the black horse dead. They don't know what caused the death. The horse was buried on the property. We walked to the other two horses,the grey horse body condition has improved and he is looking much better then the first time I saw him. The other horse body condition is also acceptable. Water,food and shelter is available. Will do a recheck.
