General Report Comments: On the 03/03/2026, Sarah Adonis who works for CARE, St Helena Bay surrendered a black terrier x male puppy to the SPCA, the puppy's tail was amputated. I asked, Sarah who did this and she told me that the boy that gave the puppy to her said that the owner of the dogs, by the name, Deon did it, and that there are 3x puppies with docked tails. I got the address of Deon from Sarah and I went to the address. Deon stays on a farm opposite Laingville. Before I went to the farm, I took the puppy to the vet. The puppy was examined by Dr. Vd. Merwe, who said that the docked tail has to be stitched and we can't just put F10 wound spray on it. I left the puppy at the vet and proceeded to go to the farm. Upon arrival on the farm, I was met by a woman called, Shireen Damon who is, Deon's wife. I asked Mrs. Damon if I can see the puppies that they still have and she called and 2x puppies came from somewhere in the field, the property is open and there is field all around. Both puppies are in acceptable conditions and their tails are still intact. I asked Mrs. Damon if her husband has in any way docked some of the puppies' tails and she said no, her husband will never do that. Mrs. Damon gave me her husband's cellphone number 0631742004 and I gave him a call, I asked Mr. Damon about the puppy that was brought to the SPCA and he told me that his son gave 2x black puppies to some friends of his who stay in Laingville, but that was 2 months ago and he has no knowledge about the puppy's tail that has been docked. Mr. Damon said that there were 6x puppies, the 2x puppies that he kept, the 2x his son gave to his friends and then the other 2x puppies he gave to his mother-in-law who stays in Vredenburg. Mr. Damon gave me the address of his mother-in-law and said that I can go have a look at this 2x puppies as well and see if their tails are docked, because he will never do something like that. Water, food and shelter was observed for the 2x puppies in Mr. Damon's care, and the other thing I also noticed is that the puppies in Mr. Damon's care are not underweight like the black puppy that was surrendered by Sarah Adonis. I left the farm and went to 265 Nackerdien str, Vredenburg, there were no people there but I could see the 2x puppies inside the yard, in acceptable conditions with their tails intact. The black puppy's tail was stitched and is recovering at the SPCA in Vredenburg. I will have to ask Sarah Adonis for the address where the puppy was found in Laingville because what this boy told Sarah is not true, about Deon amputating the puppies' tails. Will follow up.
